Comment: Shipments to the DDR include deliveries for the domestic economy as well as for the SAG's.

Comment: Of these 7,338 tons of diesel fuel shipped to the USSR, approximately 1,100 were probably reparations. Added to the 1,902 tons of reparations diesel sold by the USSR to Poland, this would bring the September 1951 reparations total to 3,002. This figure is difficult to judge, however, since part of the reparations quota for October 1951 was shipped in September 1951.

Comment: Gasoline (including technical gasoline, Mittelbenzin, isooctane and special gasoline) totaled 56,968 metric tons. Diesel shipments totaled 44,688 metric tons.
